PROFESSIONAL BACKGROUND

Asurion - Software Engineer 3
May 2021 - Present
- Build out new features for the application stack used by agents to process customer claims. We utilize React with Redux-Saga for our front end, along with an internal design system and many of smaller libraries. Our client application is paired with a dedicated GraphQL server layer, which makes subsequent calls to various REST endpoints.
- Develop in various contexts, including Node.js using Express, AWS Lambda Functions with TypeScript, and React with Redux-Saga.

RAMSEY SOLUTIONS - Developer II
August 2018 - May 2021
- Build reusable front end components in Magnolia CMS, capable of serving marketing needs for various internal business units. Utilize JavaScript, Sass, HTML and Freemarker Templating, with an emphasis on Progressive Enhancement.
- Use Optimizely to split test for UX/UI improvements, marketing funnel improvements, and other improvements to increase conversion rates and reduce bounce rates.
- Use tools such as AWS Lambda Functions in Python to enhance the front end experience.

COVALENCE NASHVILLE - Graduate
April 2018 - June 2018
- JavaScript Full Stack

ASCAP - Licensing Specialist
December 2015 - March 2018
- Performing rights license negotiations and sales
- Lead generation
- Extensive knowledge of copyright & public performance laws
- Approximately 250-300 customer calls per week

MUSIC & ARTS - Sales Manager
March 2014 - December 2015
- Managed store sales and business operations
- Coached and mentored a team of sales associates
- Managed a lesson program of approximately 500+ weekly students

LANGUAGES
- HTML
- CSS / SCSS
- JavaScript
- TypeScript
- Python
- Freemarker

LIBRARIES / FRAMEWORKS / TOOLS
- React
- React Native
- Redux
- Redux-Saga
- Node.js
- Express
- Docker
- Optimizely
- Webpack
- Vite
- Babel
- Jest
- AWS Lambda
- AWS Kinesis
- AWS SQS
- AWS API Gateway
- AWS DynamoDB
- AWS Evidently

UTILIZED CONCEPTS
- BEM CSS Architecture
- SEO Best Practices
- Accessibility Best Practices
- Core Web Vitals Best Practices
- Test Driven Development
- Progressive Enhancement
- Kanban

DATABASES
- SQL / MySQL
- SQLite
- MongoDB

CMS
- Magnolia
- SquareSpace

DEPLOYMENT
- Heroku
- GoCD
- Netlify
- Amazon Cloudfront
- Github Actions

EDUCATION

MASTER OF ARTS
George Mason University
Graduated Fall 2013

BACHELOR OF BUSINESS ADMINISTRATION
Belmont University
Graduated Spring 2010
